Subject: Response to the Draft Finding of Suitability to Transfer for Parcels III-B and VII, Former Naval Training Center, San Diego, San Diego County, California, August 2020

Ms. Linz:

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) reviewed the *Draft Finding of Suitability to Transfer for Parcels III-B and VII, Former Naval Training Center, San Diego, San Diego County, California, August 2020* (Draft FOST). The purpose of this Draft FOST is to document the environmental suitability of the Boat Channel located on the former Naval Training Center (NTC), San Diego, for transfer consistent with the Comprehensive Environmental Response, Compensation, and Liability Act. The Boat Channel includes two parcels, Parcels III-B (approximately 13 acres) and VII (approximately 44 acres). The sediments of the Boat Channel were designated as Installation Restoration Site 12 in 1995. The selected remedial action removed contaminated sediment within the Boat Channel. The remedial action was completed in February 2018.

The San Diego Water Board finds the Draft FOST acceptable and has no further comments.

The San Diego Water Board appreciates the opportunity to assist in addressing environmentally impaired sites at NTC and looks forward to assisting with these efforts. In the subject line of any response, please include the reference number DOD100366600:KSchwall.

For questions or comments, please contact Ms. Kristin Schwall at (619) 521-3368, or by email at Kristin.Schwall@waterboards.ca.gov.

Respectfully,

Kristin K. Schwall, P.E.
